

Brain Storm Ideas

- Same gym search : This will allow the users to pick their local gym and find partners easier
- Time window matching : This will allow the users to enter their workout times in order to find people that workout at the same time
- Mutual Friends
- Automated Reminders
- Streaks : this will count as streaks on different applicaitons such as snapchat or tiktok
- Reschedule option
- Blur images first and then give the user an option to unblur the image
- Quick reactions such as adding a heart emoji to the messsage
- AI alternative suggestions : This means if one machine isnt available at the gym that the users is attending they can get a suggestion which will tell them what other machine they can use.
